MEDICINAL.

Narrow Chests.

The old theory that consumption was inherited is utterly discredited by modern medical science. The germs of consumption must be received from without. These germs are everywhere. They are constantly being received and cast out by the healthy system. It is the narrow chested whose inheritance is weakness who fall a prey to consumption because they are too weak of lung to resist and throw off disease.

Doctor Pierce's Golden Medical Discovery makes weak lungs strong. It cures obstinate deep-seated coughs, bleeding lungs, weakness, emaciation and other conditions which if neglected or unskillfully treated find a fatal termination in consumption.

\$3,000 FORTY will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"In the spring of 1901 I was taken with hemorrhage of the lungs, and became very weak and short of breath, lost flesh and had no appetite," writes Mr. E. L. Robinson, of Xenia, Tenn. "I was persuaded to try Dr. Pierce's Golden Medical Discovery. The first few bottles seemed to do me but little good. I thought I would soon be a victim of that dreaded disease, consumption. Had almost given up in despair when my friends persuaded me to give your 'Golden Medical Discovery' a fair trial. I commenced its use. I weigh 160 pounds now, and when I commenced I only weighed 140 pounds. If any one doubts this statement I will be pleased to answer any inquiry."

Accept no substitute for "Golden Medical Discovery." Nothing is just as good. Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

SEA FIGHT REPORTED.

Vice Admiral Kamimura evidently trapped and attacked the Russian Vladivostok squadron off the Islands of Tsu, in the southern entrance to the Sea of Japan last night. The result of the encounter is unknown.

Fighting has been almost continuous for the past six days along the roads leading to Port Arthur and on the heights of the outer defenses of the great fortress. Vice Admiral Togo's warships have been operating in conjunction with the Japanese land forces. The Japanese have occupied several of the heights and a position on the main road to Port Arthur, but, according to Russian official reports, the Japanese have lost very heavily. One report says that in their attack upon the Russian position on the heights they lost over 1,000 men, 50 being killed by the explosion of a mine over which they were passing.

Delayed advices from Port Arthur say that the Russian Port Arthur squadron, consisting of 11 ships, attacked the Japanese squadron of 18 ships, June 23, sinking four of the Japanese torpedo boats and inflicting damage on the other vessels. The Russian ships returned to Port Arthur. Not a single large vessel, it is added, was damaged.

Major General Pliginskii, telegraphing from Mukden under date of July 1, says: "The reports from foreign sources that the Japanese fleet sank several vessels of our squadron on June 23, and that our loss included Rear Admiral Prince Oukhtomsky and 700 sailors, are absolutely untrue."

Admiral Skrydloff reports that the Vladivostok squadron has returned to Vladivostok undamaged. The Admiral confirms the bombardment of Gensan.

The steamer Chefoo which has arrived at Chefoo passed within 15 miles of the Japanese fleet, consisting of two battleships and five cruisers, all actively engaged. The Russian fleet was not seen, but the distance of the Japanese from land precludes the possibility of any attack on the land batteries. The captain of the Chefoo says he heard a terrific explosion, but was unable to discern whether a Japanese or a Russian ship was affected.

A party of Russians and Chinese arrived at Chefoo yesterday by junk direct from Port Arthur, having left there Thursday. They report that for several days shells from both land and sea have been falling in the town, but doing little damage.

Rules for Barber Shops.

The following laws recently passed by the Legislature of Maryland for the government of barbers' shops went into effect yesterday.

The use of powder puff is prohibited. The use of sponge is prohibited. A wash stand with running water must be supplied for each two barbers in a shop.

No finger bowls will be allowed. No towels shall be used for more than one person without being washed.

Mugs and shaving brushes shall be thoroughly washed with hot water after being used on a person.

No barber, unless he is a licensed physician, shall prescribe for skin diseases. Barbers must wash hands thoroughly with soap and hot water before attending to any person.

No hair must be allowed to remain on the floor, and furniture must be kept free from dust.

No strapping shall be used in stick form if used to stop bleeding. It must be in powdered or liquid form.

All utensils must be sterilized by steam or antiseptic solution before using.

Clean paper must be used for head rests; no towels will be permissible. One sheet for each customer.

Shaving paper must be clean, without printing or marking.

Cuspidors must be cleaned daily and kept one-fourth filled with antiseptic water.

Killed Landlady.

After killing his landlady, Mrs. Anna Wacławski, in Chicago, Stephen Wacławski was pursued for blocks by scores of foreigners and rescued when badly bruised in the conflict. Wacławski lived at Mrs. Wacławski's house until a few weeks ago, when the woman forced him to leave because of his intemperance. He knocked at the door Thursday night and when Mrs. Wacławski opened it he rushed into the vestibule, drew his revolver and fired twice. Both bullets struck the woman in the right arm. She ran to the kitchen, shouting for help. The woman leaned against the screen of an open window. It gave way and she fell eight feet to the ground, dying shortly afterward. The assailant rushed out of the front door, still holding the revolver. A score of men saw him and pursued. Their number was increased until hundreds, mostly foreigners, had joined the chase. They had surrounded Wacławski when the police came.

Breakfast Foods.

American breakfast foods are having a hard time of it in Austria. The millers, the dealers, the jobbers and publishers are all down on flattened oats and pre-digested shavings, it would appear from reports received by the State Department, and just at present our consular agents are doing their best to think up some scheme that will popularize the new-fangled victuals. In a letter to the department U. S. Consul Ledoux at Prague sends some clippings from prominent Austrian journals. One of them, the Muller Zeitung of Vienna, remarks: "The Austrians are not likely to relish an article which does not ap-

Freak of Religious Enthusiasm.

Because, according to his own declaration, he wished to prove his love for God, John Franklin threw himself in front of a southbound Eighth avenue car in New York city yesterday, but was saved from death by the quick action of the motorman. Franklin was walking up Eighth avenue, when, without the slightest warning, he ran out upon the track directly in front of a car, knelt down, threw his hands over his head and began to pray in a loud voice. The motorman threw his reverse power on and the tender struck Franklin only a glancing blow, causing him to slide along the asphalt. Franklin was then arrested. "What made you throw yourself in front of the car?" asked Magistrate Whitman. "I did it for the love of God," he replied. "It showed that I am willing to offer myself up as a sacrifice to the Master." Magistrate Whitman paroled Franklin in his sister's custody, but the prisoner stared at her as if he did not know her and refused to accompany her, whereupon he was ordered committed to Bellevue Hospital to be examined as to his sanity.

Chamberlain's Stomach and Liver Tablets Better than a Doctor's Prescription.

Mr. J. W. Turner, of Truham, Va., says that Chamberlain's Stomach and Liver Tablets have done him more good than anything he could get from the doctor. If any physician in this country was able to compound a medicine that would produce such gratifying results in cases of stomach troubles, biliousness or constipation, his whole time would be used in preparing this one medicine.
